**1. This opinion contains indications relating to the following items:**

- Box No. I Basis of the opinion
- Box No. II Priority
- Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
- Box No. IV Lack of unity of invention
- Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
- Box No. VI Certain documents cited
- Box No. VII Certain defects in the international application
- Box No. VIII Certain observations on the international application

**2. FURTHER ACTION**

If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

**3. For further details, see notes to Form PCT/ISA/220.**

WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/SG2004/000411

Box No. I Basis of the opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

This opinion has been established on the basis of a translation from the original language into the following language , which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).

2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:

a. type of material

- a sequence listing  
 table(s) related to the sequence listing

b. format of material

- in written format  
 in computer readable form

c. time of filing/furnishing

- contained in the international application as filed.  
 filed together with the international application in computer readable form.  
 furnished subsequently to this Authority for the purposes of search.

3.  In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

**Supplemental Box**

In case the space in any of the preceding boxes is not sufficient.

Continuation of: V

Claim 22: In citation (a) see item 314 in Fig 4.

Claims 26, 32: Citation (c) explicitly discloses all of the features of these claims. For example see:

- |   |                        |
|---|------------------------|
| - run-length decoding                         | column 8, line 67      |
| - arithmetically decoding the compressed data | column 10, lines 65-66 |
| - reverse transforming the decoded data       | column 10, lines 14-15 |
| - rearranging the transformed decoded data    | column 9, lines 59-60. |

Claim 27; 33: In citation (c) see "both horizontally and vertically" column 3, line 48.

Claim 30, 36: In citation (c) see column 3, line 44.

The features of the remaining claims are not found in any single application or patent published before the earliest priority date of the claims.

**INVENTIVE STEP (IS) Claims 1-53:**

Claims 1, 3, 5, 12, 13, 20-22, 26, 27, 30, 32, 33, 36 and 52: As above.

Claims 2, 4, 6-11, 14-19, 23-25, 28, 29, 31, 34, 35, 37-51 and 53: Above citations do not individually disclose all the features of these claims, but when combined, as would be obvious to a person skilled in the art, they disclose all of the features of the claims.

Therefore the claimed invention lacks an inventive step.
